PROFILE

Meticulously-minded JavaScript developer of two years with a passion for website and web app performance, PWA standards, security. Armed with a strong desire to grow, learn, and contribute among a tight-knit team after freelancing for two years. Regular meetup attendee, semi-regular blogger, and doer of too many hobbies.

EMPLOYMENT HISTORY

Freelance Frontend Developer, Self-employed   Santa Maria, CA
Oct 2017 — Present

PROJECTS

GamenightScore Single Page App   Remote
Sep 2019 — Present

An unpaid side project. GamenightScore is a MERN app which uses Redux for state management. Sports a live-updating UI across multiple connected devices.

Jamersan LLC. Website   Remote
Jan 2019 — Sep 2019

The stack boasts React (Gatsby) and GraphQL with a headless WordPress back-end. Worked mostly independently; occasionally collaborated with Jamersan team (hosting, design, content). Engineered custom Gatsby plugin for specific use-case.

Boundless Internet Landing Page   Remote
Jul 2019 — Sep 2019

A simple single-page landing for upcoming company launch. Uses Gatsby with a Contentful CMS. Connected with founder through Instagram.

SoCal Region 1 Website   Remote
Oct 2017 — Present

Originally developed with vanilla JavaScript, later migrated to React (Gatsby).

NOTABLE ACCOMPLISHMENTS

Hackathon   San Francisco, CA
Nov 2018

Worked on a team to develop a web app for managing social media giveaways.

Meetup Talk   Santa Barbara, CA
Sep 2019

First public speaking appearance for ~20 attendees about Progressive Web Apps. The 15-minute talk was followed by a 10-minute Q&A session.
